

Northway Group Home Intensive Residential Treatment (IRT)

IRT refers to short-term (90 day max.), time-limited, services provided in a 24 hour, 7 day a week residential setting to individuals who are in need of a more restrictive setting and are at risk of significant functional deterioration. Services are designed to develop and enhance psychiatric stability, personal and emotional adjustment, self-sufficiency, and skills to live in a more independent setting. Services must be directed toward a targeted discharge date and with specified outcomes and must be consistent with evidence-based practices.

Northway serves up to 10 adults at a time and is conveniently located on the bus line of St. Cloud. The facility is within walking distance of medical and mental health services, a convenience store, and the YMCA in which it maintains a membership that all residents may use.
